PERSONAL SUMMARY

Fresh graduate in Computer Science with experience in customer service as a cashier and technical experience as a Full Stack Web Developer. During my one year working as a cashier, I developed my communication, attention to detail, and problem-solving skills. Additionally, I have three months of experience in developing web applications using PHP, MySQL, JavaScript, and Bootstrap, including building a Transaction Recording System and a Thesis Monitoring and Evaluation System. I am quick to adapt, enjoy learning new things, and am ready to contribute to a development team to create useful digital solutions.

EDUCATION

Peradaban University

Bachelor's Degree in Computer Science

Coursework: Data Structures & Algorithms, Software Engineering, Databases, Operating Systems

Brebes, Indonesia

Sept. 2021 – Sept. 2025

EXPERIENCE

Full Stack Web Developer

PT Tanjung Mulia Informatika

Aug. 2024 – Oct. 2024

Puwokerto, Indonesia

- Successfully deployed and configured a LEMP environment on CentOS Stream 8, improving system readiness for development and testing.
- Developed functional web applications using Native PHP and AdminLTE, enhancing workflow processes for Thesis Monitoring simulations.
- Improved data handling efficiency through well-structured CRUD operations, robust GET/POST request handling, and the application of essential security controls.
- Delivered high-quality technical documentation (ERD, Context, and Activity Diagrams) to support system understanding and future development.
- Contributed to delivering a complete Computer Technician System, collaborating across planning, design, development, and implementation to ensure project success.

Cashier

TJ Mart

Aug. 2020 – Aug. 2021

Tegal, Indonesia

- Handled cash and non-cash transactions quickly, accurately, and professionally.
- Assisted customers with transaction-related issues and provided effective solutions.
- Supported store operations by ensuring smooth payment processes and customer satisfaction.

PROJECTS

Facial Skin Type Classification | *Python, Typescript, CSS, HTML, Flask*

May 2023 – Aug. 2023

- Built and evaluated a deep learning model (CNN MobileNetV2) for facial skin type classification, enabling automated prediction across five skin categories with improved accuracy and robustness.
- Front-end interface development with React.js, styled using Tailwind CSS and Material UI, ensuring a modern and responsive design.

Web-Based Transaction Recording System | *JavaScript, CSS, HTML, PHP*

Sept. 2024 – Oct. 2024

- Developed a web-based electronic transaction recording system for BRILink Agents, replacing manual bookkeeping prone to errors.
- The system was built using PHP Native, MySQL, and Bootstrap AdminLTE, featuring transaction management (transfer, cash withdrawal, bill payment), user management, and real-time financial reporting.
- The implementation improved operational efficiency, streamlined data access, and reduced employee workload in preparing financial reports.

Web-Based Thesis Monitoring and Evaluation | *JavaScript, CSS, HTML, PHP*

Aug. 2024 – Sept. 2024

- Developed a web-based Monitoring and Evaluation System to manage the thesis process for students, lecturers, and administrators.

- Built core modules including authentication, user management, thesis supervision, lecturer dashboards, student dashboards, academic period setup, program study management, and monitoring of supervision activities.
- Implemented role-based access control (Admin, Lecturer, Student) to streamline workflow, ensuring each user accesses only relevant features.
- Integrated reporting and monitoring features enabling academic staff to track supervision progress, student status, and thesis milestones in real-time.
- Designed the interface using Bootstrap AdminLTE for responsive UI and improved usability across devices.
- Improved administrative efficiency by digitizing previously manual processes such as supervision tracking, document management, and academic period settings.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, PHP, HTML, CSS, Python

Perihal: Lamaran Pekerjaan sebagai Staff

Kepada Yth.
HRD PT Leea Footwear
di Tempat

Dengan hormat,
Saya yang bertanda tangan di bawah ini:

Nama: Dita Putri Lestari
Pendidikan: S1 Informatika – Universitas Peradaban Brebes

Dengan ini mengajukan lamaran pekerjaan untuk posisi Staff di PT Leea Footwear. Saya merupakan lulusan S1 Informatika yang memiliki kemampuan dalam pengoperasian komputer, pengolahan dan pengelolaan data, serta pemahaman terhadap sistem dan aplikasi pendukung pekerjaan administrasi maupun operasional.

Selama masa perkuliahan, saya terlibat dalam beberapa proyek akademik, di antaranya pengembangan sistem pencatatan transaksi dan aplikasi berbasis web. Melalui kegiatan tersebut, saya terbiasa bekerja secara terstruktur, teliti, dan bertanggung jawab, serta memiliki kemampuan problem solving yang baik dalam menyelesaikan tugas dan menyesuaikan diri dengan kebutuhan kerja tim.

Saya memiliki kepribadian yang disiplin, cepat belajar, dan mampu bekerja secara mandiri maupun dalam tim. Selain itu, saya juga memiliki kemampuan komunikasi yang baik dan siap memberikan kontribusi positif guna mendukung kelancaran aktivitas kerja di lingkungan PT Leea Footwear.

Sebagai bahan pertimbangan, bersama surat ini saya lampirkan Curriculum Vitae (CV). Besar harapan saya untuk dapat diberikan kesempatan mengikuti tahapan seleksi selanjutnya. Atas perhatian Bapak/Ibu, saya ucapkan terima kasih.

Hormat saya,
Dita Putri Lestari
